Tips for Making Your Move Easier

Get a Professional Quote: get free quotes from companies who will pack, load, drive, and then unload your personal belongings.

Packing Yourself:

Get the proper boxes for your items

- Stacking boxes
- Wardrobe boxes
- Padded dish boxes
- Bubble wrap
- Strong tape
- Plastic or strapping tape

The heavier the item, the smaller the box it should occupy (heavy things into one huge box makes hauling much more difficult - and potentially could cause injury).

Rule #1: *"If you can't lift the box, it's too heavy!"*

Labelling Boxes: label boxes clearly with a felt marker

Never let movers pack your: jewellery, family heirlooms, or other personal, priceless items. Pack these items yourself and take them with you, either in the car or as carry-on luggage if size permits.

To protect themselves, movers will not disconnect your major appliances. Before the movers arrive to pack and load, unplug and prep your refrigerator, dishwasher, stove, washer and dryer. Also prep your computer, and always back-up your important files.
